

**APC asks officers to assess warehousing
capacity for agri-products**

Lucknow: August 21, 2019

The UP Agriculture Production Commissioner and Chairman, State Horticulture Mission, Shri Rajendra Kumar Tiwari, has directed the concerning officers to assess present and required warehousing capacity for potato, vegetables, fruits and other agri-products. He also underlined the need for ensuring wide publicity of the excellent works done under different sectors in the state by getting published success stories on these achievements to encourage other farmers for adopting modern techniques of production.

Shri Tiwari was recently addressing the 35th meeting of the state level executive body under the Horticulture Development Mission. He said that the farmers were evincing keen interest in protective agriculture, which helped in production of higher quality as compared to normal crop.

Several proposals were put in the meeting for approval. Present in the meeting were Principal Secretary, Horticulture and Food Processing and other concerning officers.
